

Growing with the HOMAG Group

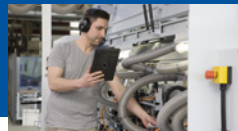

INVITATION

**HOMAG
TREFF**

September 22–25, 2015

Daily from 9 a.m. to 5 p.m.

Efficient and networked solutions for everyone from trade businesses through to industry

Ladies and gentlemen,

Innovative machines and system concepts from small-scale to large-scale, including the appropriate software and services — you can experience all of this live in action at an area spanning over 10,000 m² at the HOMAG Treff. Experience the LIGNA highlights first-hand, as well as the latest trends in the manufacture of furniture, flooring, windows, staircases, and doors.

With fantastic insights into production and one-to-one support, your visit to HOMAG Treff 2015 is an experience not to be missed.

Growing with the HOMAG Group!

Trends and innovations

A firm „grip“ on window production

- > The new BMB 800/900 power**Profiler** — dynamic, fast, precise, and flexible

Contour shaped workpiece edging in throughfeed

- > Large quantities of shaped parts can be produced economically on an edge banding machine in throughfeed

Zero joint for the door rebate

- > HOMAG is also making zero joint technology available for door rebate edging

Throughfeed technology

- > **Ambition series:** Innovative unit technology on all models. The optimal machine for every requirement

CNC technology

- > **Automation technology:** CNC cells with robot management and linear feeders
- > **Individuality is standard:** Three steps to your new machine with the new Venture range

System concepts

Production technology: Flexible production to batch size 1

- > Order-based production of furniture
- > Barcode control system

Flooring technology

- > High-performance systems for LVT

HOMAG Systems

The systems engineering specialists

- > From planning/consultation to implementation/support for customized systems, including the integrated software structure

Surface finishing expertise

Kick-off: The „Surface Competence Center“. From sanding to high-gloss coating and profile casing — surface processing to the highest quality in a new exhibition area

Software

woodWOP 7 goes 3D

- > The software highlight: woodWOP 7 with complete 3D functionality

woodCAD|CAM from HOMAG eSOLUTION

- > Reliable, fast, and easy — from the design process to the end product — especially for trade businesses

Service

Innovative service products and attractive offers

- > **ServiceBoard:** mobile service applications with new features such as the creation/sending of a service request, video diagnostics, technician assignment overview, eParts, and a mobile maintenance overview
- > **3D Scan** – You give us the workpiece that you would like to be reproduced and we give you the finished production data
- > **Express repair:** In cooperation with BENZ, we offer to repair your units within 48 or 72 hours after a free inspection

Insider knowledge, customer presentations and workshops:

Look forward to current trends, technical highlights and exchanges with colleagues and experts. Please register online!

- > **„Integrated production“ and „Industry 4.0“ in the bureau furniture production**
- > **Automation: The way to unmanned production of furniture**
- > **Batch size 1 production internationally implemented**
- > **Window production: managing the system variety with CNC-technology**
- > **High gloss furniture fronts: Process reliable laminating through optimization**
- > **Virtual reality and simulation technology: development, testing and optimization of machines and manufacturing processes**
