EVENT LOCATION

HOMAG Holzbearbeitungssysteme GmbH

Homagstraße 3–5, 72296 Schopfloch, Germany

HOMAG WINDOW DAYS with the premiere of the new **BMB 800/900** powerProfil

Dear Sir or Madam,

We would like to invite you to the full launch of our new machine concept **BMB 800/900** powerProfil.

The new concept is the result of HOMAG's 20 years experience in CNC processing centres for wooden window manufacturing – offering total flexibility for the window systems of the future.

- » **A good „grip“** – New gripping and clamping technology opens new possibilities in the design of the profiles
- » **High output on small footprint** – Parallel processing of several workpieces, rapid tool change, loading and unloading in one location
- » **All in one** – Integration of all components in one machine: straight parts, arches, doors and complementary elements

Convince yourself of the capability of the new HOMAG powerProfil.

We look forward to welcoming you!

Ulrich Schmitz
