

The Ligna Edition WTZ 110/10 LE

The WTZ 110/10 LE assembly table for the manual fabrication of highly accurate frame work and angled elements.

The flexible and robust WTZ 110/10 LE enables time and cost saving.

starting
29.500,- €

modifications and taxes

Flexibility

Allows the production of wall, ceiling, floor, roof, gable and special elements.

Modular

Expandable with a Multi-function bridge and upgradable to a larger production line.

Quality

The durable and low maintenance WTZ 110/10 LE enables high quality finished products due to the accurate X- and Y- stops.

Facts:

- The modular machine concept with upgrade possibilities from a butterfly turning table, to a compact system to a complete production line
- Flexible manufacturing from wall to roof and floor elements all on the one table
- Suits all Multi-function bridges
- Expandable e.g. roof and floor clamps
- Robust steel construction with a tiltable top frame for heavy tilting
- Hydraulic tilt feature for elements up to 3.5 tons
- Non-slip robust planking for an optimal working area
- 2 independent clamping zones. Allowing 2 elements to be worked on independently from each other at the one time
- High safety standards

Comprehensive features:

- 4 pneumatic connections and 4 country specific power outlets
- Lengthways and crossways tape measure for better positioning
- 120 mm high stop pins
- Pneumatic Power Tec clamping system with interlocking holes for the stop pins as well as extra pneumatic clamping cylinders
- X- stop with interlocking holes, set exactly to 90°

Work piece measurement max:	3,8 m x 10 m
Work piece measurement min:	0,4 m x 1,5 m
Machine length:	10200 mm
Transport width:	2990 mm
Working height:	730 mm
Number of PowerTec-clamping beams:	8
Clamping force/cylinder:	750 N (pneumatic)
Machine weight:	6000 kg
Power requirements:	7,5 kW, 32 A
Machine zero point:	bottom plate side, left
